

CHANGES FOR 2017-18: Round 2

Waivered players: KRVA will no longer be accepting or allowing age-waivers for any players. Therefore, Webpoint rosters are no longer needed for tournament entry.

No Open or Club Team Designations: KRVA is no longer requiring or allowing teams to be designated club or open. Since teams will not be associated with a specific level, any team can enter any tournament. The team codes in AES will still have to match up with the team codes in Webpoint (a list will be provided as it has in previous years).

Tournament Designations: Tournaments will be labeled as “Open” for the highest level of competition, “National” for the middle level, and “American” for lower level tournaments. The designation will be a dropdown menu on the TSR. Since teams will not be associated with a specific level, any team can enter any tournament.
